

# This is what happens when you pray to God for things you want in your life for his purposes!

Testimony. I have been praying for an Angel investor to fund buying a million + dollar multi unit apartment building. Also praying for a major rehab job. I was Greeting New and veteran people into our church "Vertical Life". My partner Greeter is a professional painter by trade and was painting in a job site when a millionaire walked up to him and asked him if he did many different types of rehab. He replied "I only paint but I know someone" and that someone was me and he gave him my number.

Now God through the millionaire He has brought into my life is restarting a successful software company he had in Atlanta, Georgia here in Minnesota where he now lives. He had been talking to me about working for him in his company and through several conversations over time it sounds more promising than my job of 30 years ago. 30 years ago shortly after I was saved, I answered a 2-line ad in the newspaper. 1000 people applied and I was hired as I had the only applicable software experience they were looking for. The terms of my contract were 25% commission on the net profit for the life of any new account brought into the company. Starting with a 3 man company God helped with nightly advice every time I went to bed with a outstanding problem I could not solve on my own. God solved mostly software development issues preventing programs from working needed to support selling \$300k to \$800k ERP systems to manufactures. The company grew to over 100 employees and over 50 unique manufacturing long-term ERP clients.

This new company the millionaire is re-starting is called Tech Velocity and has over 100 resources i.e., programmers, HIPPA consultants, and other technical resources at our disposal to start and a huge warm prospect base to start. Tech Velocity is writing up my contract 25% of the profit for any new account for the life the account and I am meeting the President Monday December 19, 2016 to discuss our future together and plan for my ramp up training. All my work for this company will be from home next to my fireplace. PRAISE GOD

The following is the over \$50 cherry bar the I with God's help built in the millionaire's basement over the last 5 months and about \$7000 of rehab wages pocketed.

Following is the Granite crew installing the Granite top on the solid as a rock built BAR to be covered with Cheery Wood. The ceiling above and around and above them is a new Coffe Cherry ceiling (more on the Ceiling later

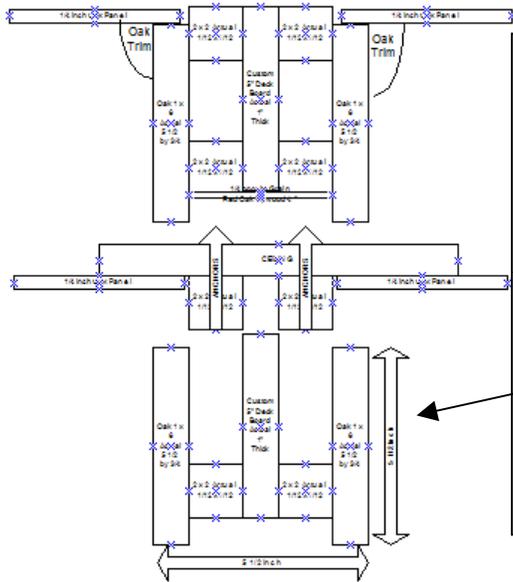

Solid as a Rock Foundation built the first time in my life with direction requested and answered from God.

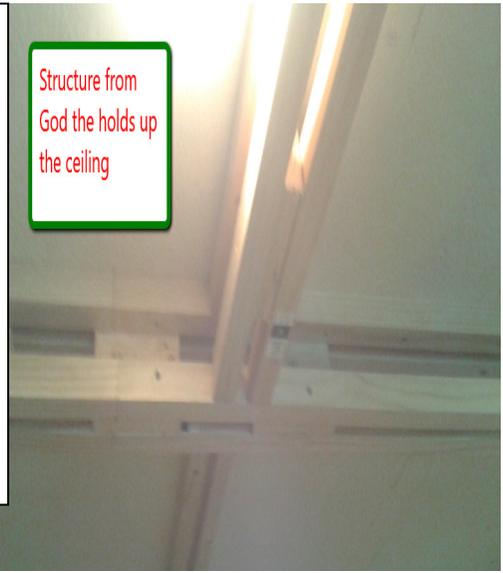

# The Coffer Ceiling

God woke me up night after night through out to tell me how to accomplish everything in this project I have never done be for in my life like building a Cheery Coffe Ceiling out of 4 types of Cherry wood. This is the structure He showed to hold up the heavy Cherry board so they would not fall on anyone' head!

The ceiling structure had to be made to fit together so it would support the weight of the cherry the main section fit to the anchored section that was first anchored to the ceiling

The Front of the Bar trimmed out in Cherry glass bead

Installed Wood Flooring

Rebuilt 2 drawer two door Cabinet for the Micro Wave

Wine Glass hangers

Double Cherry built in Wine Rack

God showed me this wine rack solution after I failed by trying to notch the crosses, which destroyed themselves from the stress.

Preparing the \$5k  
200 pound  
Petrified Wood  
piece to be hung  
on the wall and  
made removable

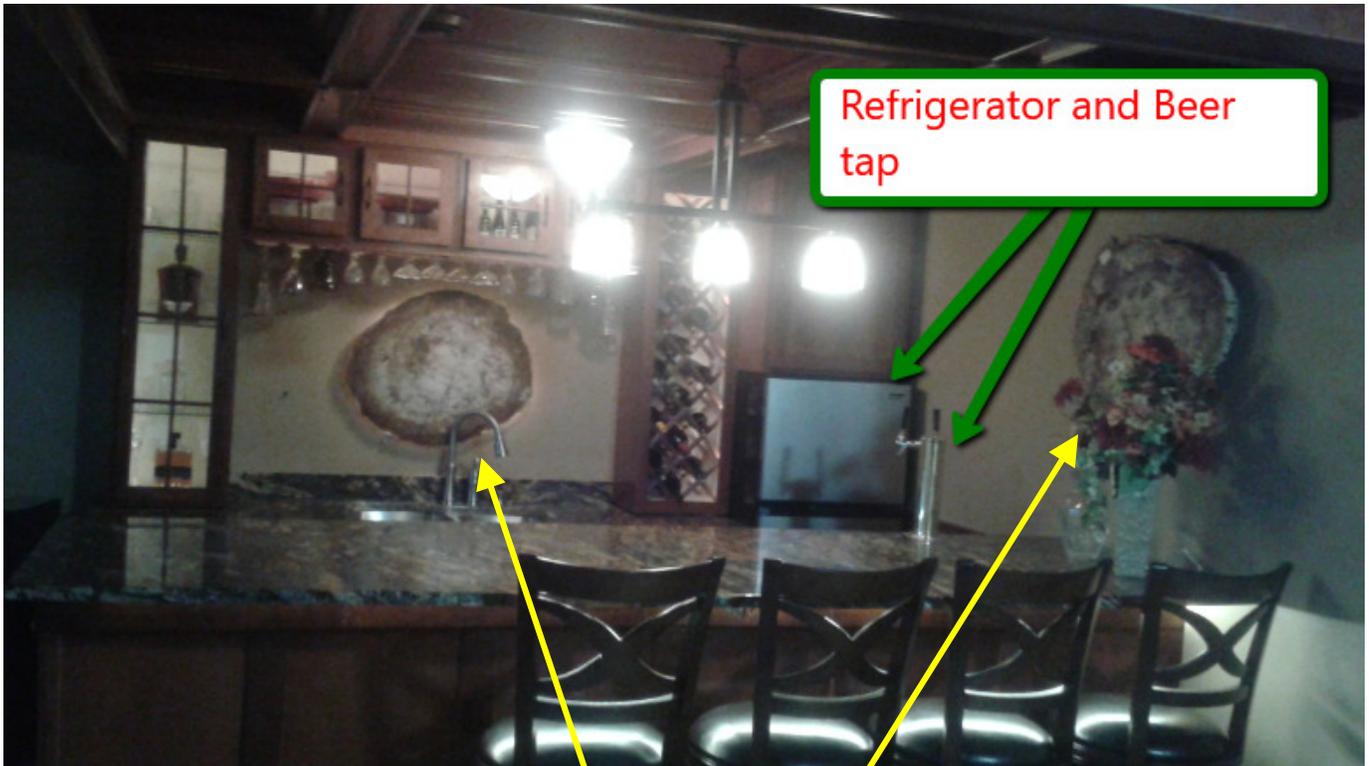

House  
Structure  
beams  
covered  
with Cherry

New dimmable light  
switches control lighting

200 lb Petrified Wood art  
Removable

Refrigerator and Beer  
tap

God woke me up in the middle of the night and gave me a vision on how to hang the 200 lb petrified wood and make it removable.

*During this project, I would go to bed night after night not having any idea or almost no idea on how to solve an issue such as: installing a Cherry Wood Coffin ceiling, without having it come falling down onto my own head. I would go to bed and pray these words "Let God; Let Go" and He would wake me up from sound sleep and give me a picture or a realization on how to solve any problem that I could not solve myself. PRAISE GOD*
